

Be Safe - Be Seen

Luas Cyclists Safety Tips

1. Do not cycle in tram lanes.
2. If you have to cross the tracks, do so as close to a right angle as possible to avoid the bicycle wheel getting caught in the Luas tracks.
3. Always use a cycle lane where provided.
4. Please adhere to all road and tram traffic signalling and road signs.
5. Please take time to stop, **LOOK LEFT AND RIGHT**, and listen for horns and warning bells from approaching trams before crossing.
6. Prepare to cross well in advance and take your time.
7. If necessary for your safety, dismount and cross the rails on foot.
8. Be alert in wet and icy weather, the ground and tracks can be slippery.

**AS A CYCLIST YOU ARE SMALLER THAN
OTHER ROAD USERS; LET THEM GO,
IT'S NOT WORTH IT.**
